

**Rafi Ahmed**

**CURRICULUM VITAE**

Dr. Rafi Ahmed is the Georgia Research Alliance Professor of Microbiology and Immunology, and Director of the Emory Vaccine Center at Emory University School of Medicine in Atlanta, GA. He earned his undergraduate degree from Osmania University in Hyderabad, India and his Ph.D. from Harvard University in Cambridge, Massachusetts. After completing his postdoctoral training in the Department of Immunology at Scripps Clinic and Research Foundation in La Jolla, CA, he joined the Department of Microbiology and Immunology at the UCLA School of Medicine. He was at UCLA from 1984-1995 and moved to Emory University in 1995. His research efforts are directed towards: 1. Understanding the mechanisms of immunological memory and using this knowledge to develop new and more effective vaccines. 2. Defining the mechanisms of T cell exhaustion during chronic viral infections and cancer and developing strategies for restoring function in exhausted T cells. Dr. Ahmed is a member of the National Academy of Sciences and the National Academy of Medicine.
