

CURRICULUM VITAE

Dr. Lisa Maier

Research Experience

- European Molecular Biology Laboratory Heidelberg, Germany** since 01/2015
Postdoctoral position in the lab of Dr. A. Typas (Genome Biology Unit) and Dr. K. Patil (Structural and Computational Biology Unit)
Topic: Drug-microbe interactions in the human gut microbiome
- Stanford University, USA** Autumn 2015
Research stay in the lab of Prof. KC Huang (Bioengineering Department)
- ETH Zürich, Switzerland** 01/2014 – 12/2014
Postdoctoral position in the lab of Prof. Dr. W.-D. Hardt (Institute of Microbiology)

Education

- ETH Zürich, Switzerland** 01/2010 – 12/2013
Doctoral studies at the Institute of Microbiology
Member of the Life Science Zurich Graduate School, Microbiology & Immunology program
Supervisor: Prof. Dr. W.-D. Hardt, PhD Committee members: Prof. Dr. J. Vorholt, Prof. Dr. A. Macpherson
Thesis title: "The Role of the Microbiota during *Salmonella Typhimurium* Induced Colitis".
- University Hospital Tübingen, Germany** 01/2009 – 10/2009
Diploma thesis at the Institute of Medical Microbiology and Hygiene
Supervisor: Prof. Dr. A. Peschel
Thesis title: "Identification and Characterization of Genes Involved in Wall Teichoic Acid Biosynthesis of *Staphylococcus aureus*"
- Eberhard Karls University of Tübingen, Germany** 10/2004 – 10/2009
Diploma studies in Biochemistry
Lab rotation projects with Prof. Ann-Beth Jonsson, Uppsala University, Sweden and Dr. Alexandra Aubry, Université Pierre et Marie Curie, Paris, France

Selected Fellowships and Awards

- Robert Koch Postdoctoral Award for Microbiology 2018
EMBL interdisciplinary postdoc (EIPOD) fellowship (EMBL / Marie Curie-cofounded) 2015 – 2017
ETH Medal for Excellent Doctorate Thesis 2015
